**Re: S.2041 An Act authorizing the lease of the former Lee Pool Complex located in the city of Boston**

Dear Chair Cabral and Chair Pacheco,

I am writing to request a favorable report for bill S.2041 *An Act authorizing the lease of the former Lee Pool Complex located in the city of Boston.*

This legislation would authorize the redevelopment and expansion of the Lee Pool which has been shuttered for a long time. The redevelopment of this site will provide increased access to the waterfront and create expanded recreational space for the public to use and enjoyment. This project would create a public-private partnership and the building would be 100% privately-funded, yet priority would be placed in the use of the building for public access and public programming.

I believe these improvements will provide benefits to the community that the Lee Pool site serves as well as those who visit. This is a project that local and state legislators, the Esplanade Association, and community partners have envisioned for years and a favorable report would help that vision come to fruition.

Thank you for your consideration to this matter. Please reach out with any questions.

Sincerely,

A handwritten signature in black ink that reads "Jay Livingstone".
